We are looking for Metal Finishing Technicians for our 1st and 2nd shifts who will be responsible for transforming an in-process part to a finished product that can be delivered to the customer. This person will have the opportunity to work on all kinds of different projects and with a variety of different tools and equipment.

Here's what you'll be doing:

- Receive work orders with instructions on which parts to work on and what processes to take them through.
- Run the parts through different machines including tumbling machines, large and small sanding machines, pedestal sanders, buffing wheels, etc. to rid them of scuffs, burrs, and general imperfections.
- Visually inspect the parts and notify other departments of issues that need corrected.
- Package parts in accordance with work orders.
- Log work order progress / completion and clean up each work station for the next work order.

You'll love this job if you have/are:

- 1 – 3 years of experience in the metal manufacturing industry, preferably in a job shop environment
- 1 – 3 years of experience deburring, grinding, and polishing metal
- Strong hand eye coordination and the ability to concentrate and perform repetitive tasks.
- Committed to contributing to the team effort
- Flexible and willing to assist the team in other areas when needed
