

Metalcraft Industries is a premier metal manufacturing partner with CNC machining, stamping, and sheet metal capabilities all under one roof. We prioritize the professional development of our associates and the continuous improvement of our business. Our core values and commitment to providing a safe environment guide all our actions.

Unity | Commitment | Responsibility | Excellence | Support | Innovation

We are looking for a CNC Machine Operator for our 1st and 2nd shifts who will be responsible for setting-up and operating CNC Machining equipment such as Vertical and Horizontal Mills to produce parts to meet customer specifications.

Here's what you'll be doing:

- Receive work orders with instructions and prepare workstation with the appropriate materials
- Load material into clamps, fixtures, or vices and run the machine
- Follow all applicable internal procedures and job router instructions
- Inspect product for quality and compliance with customer specifications using metrology equipment
- Be flexible and versatile to fill-in in other areas to meet the needs of ever-changing bottlenecks.

You'll love this job if you have/are:

- 3 – 5 years of experience setting-up and operating CNC Machines
- Committed to contributing to the team effort
- Flexible and willing to assist the team in other areas when needed

Position Details:

- Work Schedule:
 - 1st Shift: Monday – Thursday, 6:00am – 4:30pm
 - 2nd Shift: Monday – Thursday, 4:30pm – 3:00am
- Wage Range: \$16 - \$22 / hour

We have delivered high-quality products for three generations. We have an amazing team and want someone who cares about fostering a positive, team-orientated, engaging culture!
